Experience

Frontend Developer Intern | *Global Web Dreams* Jan 2025 - Mar 2025

- Built and delivered 2 client-facing landing pages using HTML, CSS, and JavaScript with a focus on pixel-perfect accuracy, cross-browser compatibility (Chrome, Firefox, Safari), and responsive layouts across all screen sizes.
- Improved page load performance by optimising asset sizes and deferring non-critical scripts, targeting 90+ Lighthouse scores on each deliverable.
- Collaborated on design-to-development feedback, refining layout, spacing and interaction details based on implementation requirements.

Projects

DigiBoard — Real-Time Collaborative Whiteboard Live · GitHub

Next.js · TypeScript · Liveblocks · Convex · Zustand · TailwindCSS

- Built a real-time collaborative whiteboard supporting shapes, text, sticky notes, freehand drawing, layer management and multi-user cursors.
- Designed the architecture by separating persistent board metadata in Convex from high-frequency collaborative state and presence using Liveblocks.
- Integrated Clerk authentication and organization-based access while implementing client-side state management with Zustand.

Quizo — AI Quiz Generator Live · GitHub

Next.js · TypeScript · Gemini API · MongoDB · Prisma · TailwindCSS

- Designed a prompt engineering pipeline using Google Gemini API that generates 3-5 contextually accurate MCQs with distractors in ∼5 seconds - compared to 10-15 minutes manually, a ∼95% reduction in time.
- Integrated Google OAuth authentication with NextAuth and persisted users, quizzes and questions using Prisma and MongoDB.
- Implemented per-question generation latency optimisation achieving 400ms average response time; added quiz analytics dashboard giving users session-level performance insights.

Oshi — Real-Time Chat App Live · GitHub

React · Node.js · Socket.IO · Cloudinary · JWT · bcrypt

- Built a full-stack one-to-one chat application supporting real-time text and image messaging, user discovery and online presence.
- Designed a REST + Socket.IO architecture, using REST APIs for authentication and persistent operations and Socket.IO for real-time message and presence events.

Technical Skills

Languages: C++, Javascript,SQL

Frontend: React.js, Next.js, TailwindCSS, Zustand, HTML, CSS

Backend: Node.js, Express.js, REST APIs, Prisma ORM

Databases: MongoDB, PostgreSQL, Convex, SQL

Tools: Git, GitHub, Vercel, ClerkAuth, GeminiAPI

CS Fundamentals: Data Structures & Algorithms, OOPs, DBMS

Education

D.Y. Patil Pratishthan's College of Engineering, Kolhapur 2021 - 2025
B.Tech in Computer Science Engineering CGPA: 7.4

Rajarshee Shahu Junior College, Buldana 2018 - 2020
Higher Secondary Certificate 82.60%

Sharda Dnyanpeeth, Buldana 2017 - 2018
Secondary School Certificate 98.4%

Achievements

- Selected for **Buildspace Season 5** out of 32,000 global applicants (∼4% acceptance rate).
